

ACTION

RESPONSE

Find the mean, median, mode and range of the following sets of data:

1. 4, 4, 9, 2, 4, 5, 6
2. 11, 34, 24, 11, 15, 25
3. -4, 14, -5, 0, 14, 5

For each question write down an appropriate data set:

1. 5 numbers with a mean of 6
2. 4 numbers with a mean of 5 and a median of 6
3. 5 numbers with no mode, a median of 5 and a range of 8
4. 4 numbers with a mean of 5 and a median of 5 that are not integers.

Fluency

Reasoning

Problem Solving

The mean of 5 numbers is 6. If one of the numbers is 2. What is the mean of the other 4 numbers?

The mean of 6 numbers is 7. If one of the numbers is 12. What is the mean of the other 5 numbers?
