

# 5.9 Starting Six

A computer costs £588 in a 30% sale.  
Work out the original cost before the sale.

A square has the same perimeter as shape B.  
Write an expression for the side length of the square.

Write the number 0.00315 in standard form.

Write  $902 \times 10^4$  in standard form.

Solve:  $9x - 5 = 3x + 13$

Expand

$$(x + 2)(x + 3)(x + 1)$$

James invests £2000 in a bank offering a compound interest rate of 1.9%  
How much will his investment be worth in 4 years?
