

Area Problems (Compound Shapes)

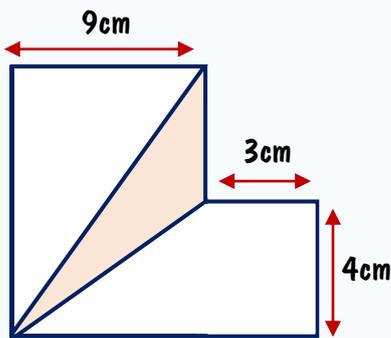

Find the area of the shaded section in each compound shape.

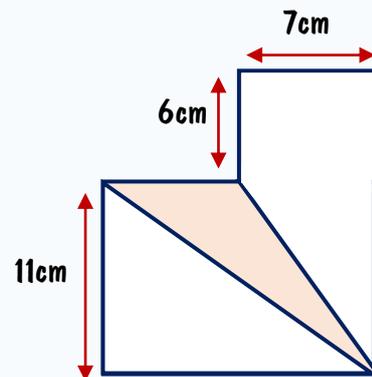

Perimeter = 48cm

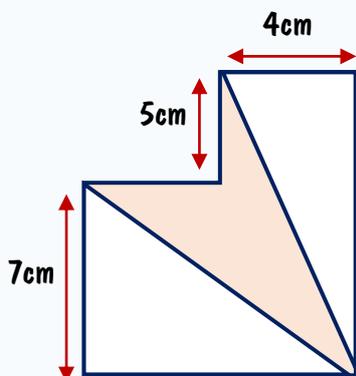

Perimeter = 38cm

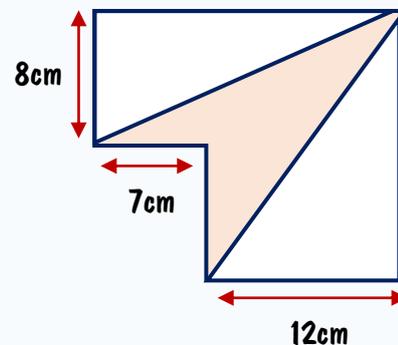

Perimeter = 42cm

Perimeter = 58cm

Perimeter = 39cm

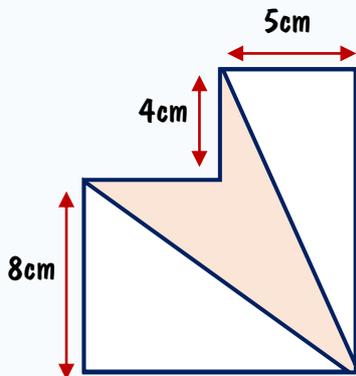

Perimeter = 67cm

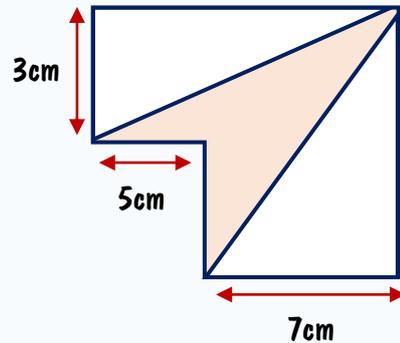

Area Problems (Compound Shapes)

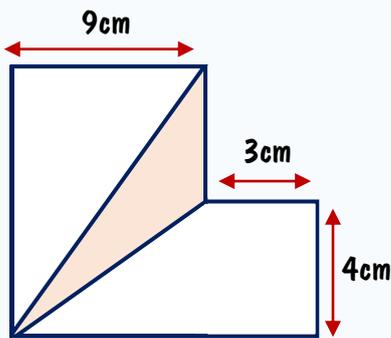

Find the area of the shaded section in each compound shape.

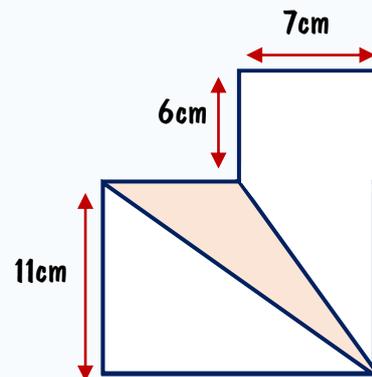

$$\text{Perimeter} = 48\text{cm}$$

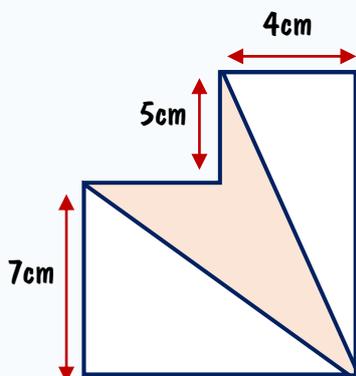

$$\text{Perimeter} = 38\text{cm}$$

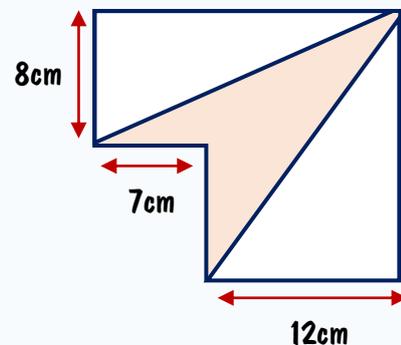

$$\text{Perimeter} = 42\text{cm}$$

$$\text{Perimeter} = 58\text{cm}$$

$$\text{Perimeter} = 39\text{cm}$$

$$\text{Perimeter} = 67\text{cm}$$
