

ACTION

RESPONSE

Solve the equations and enter the solutions into the Venn diagram:

- | | |
|------------------|------------------|
| 1) $2x + 5 = 11$ | 4) $7x - 9 = 19$ |
| 2) $4x - 4 = 16$ | 5) $3x + 7 = 4$ |
| 3) $6x + 5 = 20$ | 6) $4x + 14 = 4$ |

Fluency

Reasoning

Write 4 equations with solutions that satisfy each region for this Venn diagram:

Problem Solving

- Determine 3 categories for each region of the Venn diagram shown given there is a value for x .
- Determine the value of x
- Write an equation that gives you a solution for the value of x
