# RESPONSE

Fluency

1.  $15x + 20$

4.  $18 - 24x$

7.  $15xy + 35x^2$

2.  $21x + 14$

5.  $15x^2 + 10x$

8.  $21x^2y - 35xy^2$

3.  $35x - 21$

6.  $45x - 30x^2$

9.  $24x^2y^2 - 16xy$

Reasoning

Circle the expressions that could have similar binomials when factorised.

Problem Solving

The area of the rectangle can be expressed as:

$(21x - 14)$  cm

The perimeter of the shape is 22cm.

Find the value of 'x'
